

# LIVING ARTS COLLEGE

## Immunization Policy

While it is the policy of the college the proof of immunization is not required prior to starting classes it is a requirement that all required immunization are complete prior to starting the externship component of their program if one is required.

Students must provide documentation to the Director of Education or other designated individuals of their current immunization status and evidence of immunity by vaccine, titer, or immunization record as follows:

(1) German Measles (Rubella).

(2) Red Measles (Rubeola), if born after 1957, you will need a 2<sup>nd</sup> vaccine.

(3) Mumps.

(4) Annual TB Skin Test (Mantoux Method), if positive, chest x-ray should be negative and the individual asymptomatic of TB with at least an annual assessment.

(5) Chickenpox, proof of disease, +titer, or vaccine.

(6) Tetanus/Diphtheria, vaccination plus a booster every 10 years.

(7) Hepatitis B Immunization Series or provide to the same an appropriate signed declination form.

Failure to provide the aforementioned will prohibit students from starting their Externship Course(s) associated with their program of study and will therefore not be able to graduate.
